

THE 50x2030 INITIATIVE TO CLOSE THE AGRICULTURAL DATA GAP
RESULTS FRAMEWORK **CONCEPTUAL OVERVIEW**

IMPACTS

OUTCOMES

OUTPUTS

INPUTS

DEVELOPMENT OBJECTIVE:
Contributing to increased food security, improved nutrition,
less hunger, sustainable agriculture in support of SDG 2

PROGRAM OBJECTIVES

1.0
Increased and sustained evidence-based
decision-making in support of national,
regional and global development frameworks

2.0
Partner countries produce and disseminate
more, high quality, timelier and more
disaggregated agricultural and rural survey data

1.1
Stronger capacity of partner
countries to produce data that is
relevant, timely and high quality

1.2
Key actors using survey data in
more and better ways in
partner countries

1.3
More sustainable and strategic
agricultural data ecosystems in
partner countries

**50x2030
PROGRAM**

1.4
Increased financing of
agricultural surveys by
partner countries

2.1
Countries have implemented
integrated surveys in line with
recommendations of the Initiative

2.2
Countries have implemented activities to strengthen
the data ecosystem for data use through improved
capacities, communication, policies, and practices

2.3
Better and more efficient
survey-related tools adopted in
national official data systems

GOVERNANCE & OPERATIONS
