THE 50x2030 INITIATIVE TO CLOSE THE AGRICULTURAL DATA GAP
RESULTS FRAMEWORK CONCEPTUAL OVERVIEW

DEVELOPMENT OBJECTIVE:
Contributing to increased food security, improved nutrition, less hunger, sustainable agriculture in support of SDG 2

PROGRAM OBJECTIVES

1.0 Increased and sustained evidence-based decision-making in support of national, regional and global development frameworks

   1.1 Stronger capacity of partner countries to produce data that is relevant, timely and high quality

   1.2 Key actors using survey data in more and better ways in partner countries

   1.3 More sustainable and strategic agricultural data ecosystems in partner countries

   1.4 Increased financing of agricultural surveys by partner countries

2.0 Partner countries produce and disseminate more, high quality, timelier and more disaggregated agricultural and rural survey data

   2.1 Countries have implemented integrated surveys in line with recommendations of the Initiative

   2.2 Countries have implemented activities to strengthen the data ecosystem for data use through improved capacities, communication, policies, and practices

   2.3 Better and more efficient survey-related tools adopted in national official data systems
